

HIGH VELOCITY  
AIR MOVEMENT

# 18" Wall Mount Fans

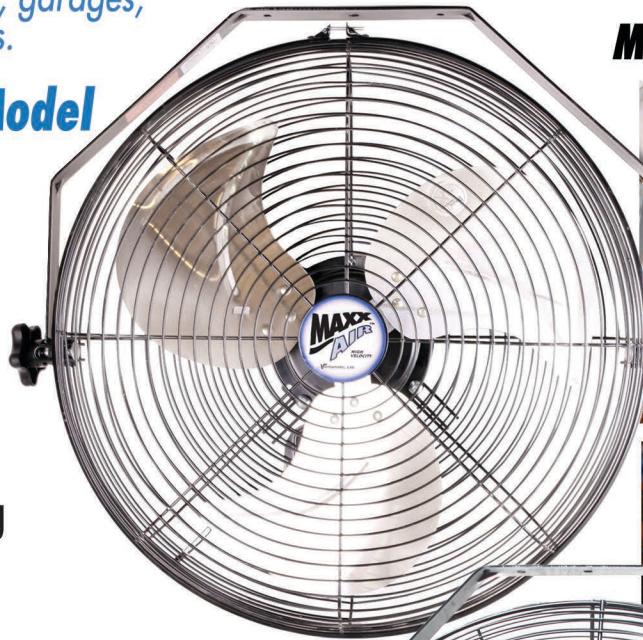

**Ideal for areas where floor space is limited and when overhead circulation is required. All models have these standard features:**

- Powder-coated steel construction
- Pre-installed bracket allows for easy wall or ceiling mount installation
- Tilting fan head to focus airflow exactly where you need it
- 1-year limited warranty

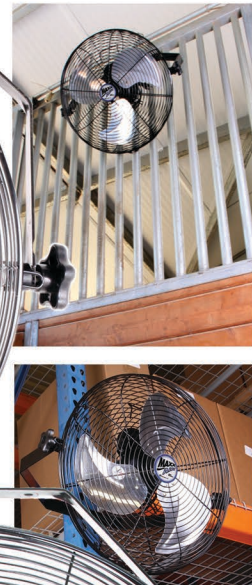

*A great choice for barns, workshops, garages, and other harsh indoor environments.*

## Non-Oscillating 3-Blade Model

- Totally enclosed dust-proof, energy efficient PSC motor (120 V / 60 Hz / 0.7 Amps )
- Up to 1450 CFM
- OSHA compliant, rust resistant grilles
- 3-speed pull chain
- 10-ft. grounded three-prong power cord

**Model HVWM 18**

## Non-Oscillating 2-Blade Model

- Totally enclosed, dust-proof and energy efficient PSC motor
- Up to 3500 CFM
- OSHA compliant, rust resistant grilles
- 3-speed dial switch
- 7.5-ft. three-prong power cord

**Model HVWM 18CD**

**A HUB model is available for this fan type! Please see our sales sheet on HUB systems for more information to learn about controlling this fan using WiFi!**
